Help desk HSEB Room 3100; 801-213-3522

To Start
Touch screen to activate the control panel; touch again to display login screen; enter code XXXX; press Enter

Select Sources
Podium PC
Podium Mac
Podium Inputs—allows you to connect your laptop or other media
Select Laptop 1 or Laptop 2 or S-Video or Composite Video

Document Camera—overhead and slide mode available; device projects opaque objects, pages from a book, transparencies, slides

VCR—standard controls
DVD—standard controls

Select Display Device
Left Projector and/or Right Projector/Screen Screen(s) descends and projector(s) turns on. You can have two different sources showing at the same time and move back and forth between them.

Lighting
Experiment with Full, Meeting, Conference, Projection and Dim to select the lighting choice that works for you.

Lights can also be controlled from the switch panels on the wall.

Advanced
Lowers screen and turns on projector(s); includes Projector Screen, Current Status and Display Modify

Media Source Controls volume for VCR, DVD or other media; Mute is a toggle
Mic Volume Controls volume for the portable mic; Mute is a toggle
Make A Point! This feature shutters the projector; operates as a toggle
? (Help) Provides contextual help – press again to turn off

Help Desk? Contacts a person who will respond immediately

System Off Use to end session; turns the projector off, retracts the screen & turns lights on. Projector takes 3-5 minutes to cool before it can be turned on again.

Additional Information for 150-person classrooms
• Classroom has two projectors and two monitors, document camera, DVD and VCR players
• One monitor has an annotation overlay (described on following page)
• Internet access is available for all computers; personal computers can be hooked to the Internet with a network cable or connect via the wireless network
• A remote device with pointer is available for advancing slides and Web pages on the PC
• There are three mics – 1) fixed podium; 2) wireless; 3) hand-held; assistive listening
• Dry erase markers and erasers are in all rooms. (Or ask!)

Equipment requests can be directed to the Help Desk; 213-3522

FINGERS ONLY!
Use only your finger to touch the podium control panel or the computer monitor with the annotation overlay. Do not use a pen, stylus, etc. on the screens; do not clean or wipe screens!
Annotation Overlay

The annotation overlay feature allows you to write or draw on the computer screen with your finger (fingers only); what is written or drawn is projected onto the screen.

The computer screen can be tapped to display an arrow.

Press in upper left corner to select color
Press in upper right corner to erase last mark
Press in lower left corner to erase all marks
Look in lower right corner to see color choices; selected from upper left corner

FINGERS ONLY!
Use only your finger to touch the podium control panel or the computer monitor with the annotation overlay. Do not use a pen, stylus, etc. on the screens; do not clean or wipe screens!
